Sidewalk Construction near Elementary School

Construction Update:
Construction for the sidewalk project on 300 East from 400 South to 800 South is underway!

The project, made possible by a million dollar grant, will add new curb and sidewalk along both sides of the road from 400 South to 800 South along 300 East, as well as a new layer of asphalt. The road will be widened a little in some areas to help accommodate on-street parking for the elementary school.

Work will begin at 400 South and will progress towards the south. By starting on the north end and working south, the contractor intends to have all concrete curb and sidewalk complete from 400 South to 600 South on both sides of the road before the first day of school in August, but those areas south of 600 South will still be under construction after school starts.

There will be periods of extended road closures

and lane restrictions during construction, when only local traffic will be allowed for those homes affected on 300 East.

The public is advised to use 100 East and 800 South as an alternate route to get to the canyon during construction.

Construction updates will be posted on the City Facebook page as we receive them. For more information, please contact the City offices at (435) 283-4631.
