

EPHRAIM CITY NEWSLETTER

WATER CONSERVATION

Water your yard and outdoor plants early or late in the day to reduce evaporation.

Use a shut-off nozzle on your hose.

Use plants that require less water.

Mulch around plants to hold water in the soil.

Get an Energy Star labeled washing machine.

Use a low flow showerhead.

Wash only full loads.

Take shorter showers — five minutes or less is best.

Turn off the water while soaping hands and brushing teeth.

Turn off sink faucet while scrubbing dishes and pots.

Install new toilets that use less than 1.6 gallons per flush.

Put faucet aerators on sink faucets.

Use a broom, not a hose, to clean driveways and walkways.

Ephraim is experiencing lower than usual water levels for this time of year.

In order to prevent restrictions, please help us preserve the water we have to get us through the winter months.

Water Saving Tips:

~Put a bucket in the shower while you're waiting for the water to warm up, and use the water you catch for watering plants, flushing the toilet or cleaning.

~Repair any leaks in and around your home.

~Only run full loads in your washer and dishwasher.

~Shorten the time you water your yards.

We appreciate your help in conserving water for our city.

CALENDAR OF EVENTS

City Council Meetings:

- SEPT 7, 6:00 pm
- SEPT 14, 6:00 pm
