Lions Club Announcement

The Ephraim chapter of the Lions Club has changed its regular monthly meeting schedule from the first Thursday to the second Thursday of each month at 6:30 p.m. Meetings are held in the Ephraim Senior Center located at 85 West 100 North.

If you would like information about the Lions Club or have questions, please contact the Lions Club President, Sheryl Bodrero at: Sheryl.Bodrero@snow.edu.
Even if they say “flushable,” disposable wipes will clog pipes

Prevent costly backups and place wipes in trash

Many household products are labeled and marketed as DISPOSABLE and/or FLUSHABLE; many baby and adult personal hygiene products, along with household wipes and cleaning towelettes are labeled both disposable and flushable. While these products may be marketed as a convenience item in this way, the truth is that these types of items have caused blockages, backups, and service problems in the Ephraim public sewer system and pump stations, resulting in sewer-flooded homes.

Unlike toilet paper, these products DO NOT break down once they are flushed!

When these products make their way into the public sewer system they collect together, causing very large obstructions and clogs in the main collector lines and get tangled in pump stations requiring repair or replacement of equipment.

What You Can Do to Help…

The following items should NEVER be flushed into the sewer system:

| Flushable hygiene wipes | Mop or “Swiffer” type refills |
| Baby wipes              | Paper towels                  |
| Disinfecting/surface wipes | Pet care wipes               |
| Cosmetic wipes/Jewelry wipes | First Aid wipes              |
| Disposable diapers or diaper liners | Bio-pads (nursing home, home health care, etc.) |
| Cotton swabs            | Feminine hygiene products    |
| Toilet cleaning pads    | ANY Moist type towelettes    |

Do not flush the listed items; place them in the trash, not the toilet.

THANK YOU FOR YOUR HELP!
